4" and 5" W/D Silicon Carbide sanding discs with hook & loop back. Can be used wet or dry. These discs have a 1/2" center hole for use with wet sanding stone tools. H&L discs will significantly outlast PSA discs. Used mostly on granite, marble, stone, and other ceramic materials

## BACKUP PADS FOR DIAMOND POLISHING DISCS

We carry a complete line of water-cooled backup pads for use with diamond polishing discs. Each pad has a heavy duty 5/8-11 metal arbor connection, and a precise water feed hole through the arbor. The pad surface is hook & loop to securely hold the diamond disc. The pad features a 1/2" interlayer of medium density foam to properly support the diamond disc.

Water feed

Part No	Pad Diameter & Arbor	Qty	\$/ea
151405	3" x 5/8-11	1	8.46
151409	4" x 5/8-11	1	7.68
